## 2 Introduction

In April 2021, the LISS panel<sup>1</sup> completed a questionnaire on work and schooling, as part of the LISS Core Study. The survey was repeated in May 2021 for panel members that did not complete the questionnaire in April. The questionnaire was presented to 6,541 panel members, of which 5,287 completed the questionnaire (response percentage 81%).

This survey is repeated every year.

<sup>1</sup> Reference to LISS panel data in text:

*In this paper we make use of data of the LISS (Longitudinal Internet studies for the Social Sciences) panel administered by Centerdata (Tilburg University, The Netherlands).*

### 3 Codebook

This codebook contains the questionnaire as administered to the LISS panel.

- Variable names: The variable names are printed in **bold** and correspond to the names in the dataset.
- Routing: The questionnaire routing is printed in *italics* for each variable concerned.
- *open*: answer box (no limit to the length of the answer).
- *string*: answer box allowing a certain number of characters (standard is 255).
- *empty*: questions could be left unanswered
- Numerical variables: If ranges were used, these are printed in *italics* in the codebook if the respondent could not see them on the screen. If the respondent was able to see the ranges, the variables are printed in normal letter. *Integer*: If a question is not subject to any limit (integer), no range is indicated.
- 'Fills' (variable text) are given between straight brackets [].
- Variables in between curly brackets {} are not part of the dataset, but the corresponding questions or text were part of the questionnaire.

**{intro1}**

The following questions are about your schooling [*if cw21n000=1*: and training in relation to work]; you will possibly recognize them from last year's questionnaire.

If you participated last year, you will see that the answers that you gave then are filled out already. Of course your situation might have changed since then. In this case you can change your answer.

Each year you will receive the questionnaire again. In this way we can measure changes over time.

**{goed}**

According to our information you presently have [*if cw21n000=0*: no] paid work. Is that correct?

- 1 yes, that is correct
